

26. The complex of claim 23, wherein said third polypeptide comprises an amino acid sequence expressed by said mammal.

27. The complex of claim 23, wherein said third polypeptide comprises a bacterial amino acid sequence.

28. The complex of claim 23, wherein said third polypeptide comprises a fungal amino acid sequence.

29. The complex of claim 23, wherein said third polypeptide comprises a viral amino acid sequence.

30. The complex of claim 23, wherein the connection between at least two of said first, second, and third polypeptides comprises a non-covalent interaction.

31. The complex of claim 23, wherein the connection between at least two of said first, second, and third polypeptides comprises a disulfide bond.

32. The complex of claim 23, wherein said first, second, or third polypeptide comprises a linker site.

33. The complex of claim 23, wherein said complex comprises a linking molecule.

34. The complex of claim 33, wherein said linking molecule connects at least two of said first, second, and third polypeptides.

35. The complex of claim 24, wherein said second polypeptide comprises an amino acid sequence expressed by said mammal.
